Smart Zero Client

## INTRODUCTION

All the users access to same system and set of applications which are installed and controlled by IT administrator. Centralized processing and housing of applications provide better security and larger cost saving compared to normal PCs. The total solution includes two parts, Smart Point Server Software and Smart Zero Client.

Smart Point Server Software (Free) is installed on the Host PC, it enhances the overall functionality and usability of the Server/PC by offering flexible Windows OS support, secure desktop roaming, centralized management and broad peripheral support. Smart Zero Client is a client device which allows the users to access a session of an Operating System remotely.

As a stepping stone to the RDS/ TS remote access, Smart zero client is a client device which allows the users to access a session of an Operating System remotely. Combined with the powerful Smart Point Server software, up to 40 Smart Zero users can effectively share the resources of a single operating system independently and parallel.

## FEATURES

- Dramatically reduce your computing costs
- Easy to install, simple to manage
- Zero endpoint management

Smart Zero client USB transparent transmission technology that no drivers required on zero client for – just a native Windows driver is required. To further optimize printing, the Smart Point software solved a remote printing bug of Windows, ensuring that only one printer copy for a single printer is generated on the host computer system.

## SMARTSTATION THIN CLIENT BENEFITS

### GREEN

Lower power consumption for energy saving and reduce CO2 for earth saving.

Our products focus on reducing, reusing and recycling materials used in our manufacturing operations.

Our environment compliance effort including ISO 9001:2008 Certification.

### DURABLE

Fanless design for long life span, noise free and higher system reliability. Our thin client components are used industrial level and solid parts for long lifespan.

### ECONOMIC

Lower power cost of ownership (TCO): Save more than 50% off cost than using traditional desktops for energy saving and maintenance cost saving.

### SECURE

Since the software becomes entirely confined to the servers, thin clients are protected from the use of unauthorized software or the introduction of viruses, Unlike PCs and traditional laptops, thin clients are locked down and offer greater security against theft, damage, malware, spyware and viruses.

Very Low Cost

Ultra Low Power

Better Performance

Secure

Power Saver

## Specifications

Power consumption: 0.2 ~ 5 Watts

Max. Resolution: 1920\*1200

Audio: 16 bit stereo audio input /output via 3.5mm jacks

Networking: 10/100 Mbps Ethernet (RJ-45)

Connections: 6 USB 2.0 ports & VGA display output.

Supported USB Peripherals: Support USB devices including keyboard, mouse and USB drive.

- Supports seamless dynamic HD movie playback in any format with any media players.

Supported Operating Systems :

Smart Point Server supports

Windows : Windows XP/ Vista/7/ Windows 8 & 8.1/Server 2003/Server 2008/ Server 2012/

MultiPoint Server 2011 & 2012/ (Windows Home edition is excluded.)

### SPECIFICATION DESCRIPTION

Smart zero client has no extra software, drivers, operating systems, CPU, power supply or memory but only contains the necessary hardware to initialize a conversation with the network, begin network protocol processes, and display server output. It centralizes all software, processing and management to just what is running on the server, leaving little more than a keyboard and monitor at the user's desk. It is a highly impacted, small and green devices that consumes less than 5 watts energy, generates the lowest heat & carbon footprint, and lasts as long as 7-10 years.
