INTRODUCTION

Compared to traditional PC, MINI PC can benefit enterprise users with higher IT management efficiency, productivity and lower TCO.

SMARTSTATION MINI PC is the smallest, most advanced MINI PC on the market. It combines great performance, stateless operation, low power consumption, remote management and simple device setup and imaging. This small, lightweight, solid state unit can be mounted on the back of monitor, making SMARTSTATION MINI PC ideal for any space-constrained environment.

SMARTSTATION MINI PC series are available with Linux, Windows 7 Embedded, Windows 10 IOT OS.

SMARTSTATION is dedicated to be the professional MINI PC, Thin Client, Zero Client and embedded computing provider for over 21 years and now we are one of the top independent manufacturer of Mini PC. With providing design, manufacturing and service support functions for embedded computing SMARTSTATION is your best embedded solution partner to empower more efficiency and safety for your e-World.

Smart Station MINI PC are best suitable for Education, Small & Medium Scale Industries, SOHO, Hospitals, Chartered Accountants, and Traders, Corporate

SMARTSTATION MINI PC BENEFITS

GREEN

Lower power consumption for energy saving and reduce CO2 for earth saving.
 Our products focus on reducing, reusing and recycling materials used in our manufacturing operations.
 Our environment compliance effort including ISO 9001:2008 Certification.

DURABLE

Fanless design for long life span, noise free and higher system reliability. Our thin client components are used industrial level and solid parts for long lifespan.

ECONOMIC

Lower power cost of ownership (TCO): Save more than 50% off cost than using traditional desktops for energy saving and maintenance cost saving.

SECURE

Since the software becomes entirely confined to the servers, thin clients are protected from the use of unauthorized software or the introduction of viruses, Unlike PCs and traditional laptops, thin clients are locked down and offer greater security against theft, damage, malware, spyware and viruses.

Very Low Cost	Ultra Low Power	Better Performance	Secure	Power Saver
Easy to Manage	Stable & Reliable	Fanless Design	Eco Friendly	Maintenance Free

Specifications

Processor	CPU	Intel Celeron n2807 2.16 GHz
Cache	Memory	1MB L2
Memory	RAM	2 GB DDR3, (Expandable upto 8 GB)
Storage	FLASH	2.5" Sata HDD or SSID (Expandable up to 1 TB)
Display Interface		1 x HDMI, 1 x VGA
Graphics (Integrated)		Integrated Intel HD Graphics
I/O Peripheral		1 x USB 3.0, 4 x USB 2.0, 1 x Audio Ports (Line Out/Line in) 1 x Mini PCI Port (WiFi)
Networking	LAN	1 x 10/100/1000 Mbps LAN
	WLAN	1 x Mini PCI Express Slot for WiFi
OS Support	Embedded	Windows 7 Embedded, Windows 10 IOT
	Linux	Ubuntu, Cennt OS, RED HAT, SUSE Linux
	Windows	Windows 7 or Higher Version
Operating Temperature		-20° to +85°
Size	UNIT	16.5 L X 13 B X 4 H (cm)
	BOX	24 L X 24 B X 6.75 H (cm)
Body Type		Aluminum Alloy Shell Body
Power Adapter		External 12V-3A Consumption : 15W
